PROGRAM**

**APPLY
TODAY**

Classes Start June 2

Receive training for technician positions in the heating, ventilation, and air conditioning (HVAC) industry.

A 13-week industry certified VIRTUAL training course through the Urban League of Central Carolinas will teach you about energy efficient and sustainable technologies in this industry. Program graduates receive a paid work-based learning experience (**\$15 hourly**), with the high potential for permanent job placement with program partners such as Trane Technologies and others in the field.
